FEDERAL FORUM

IBM PRESENTS: SYSTEMS MANAGEMENT

DATE AND TIME: Thursday, November 6, 1980
9 a.m. (Coffee - 8:30 a.m.) to Noon

LOCATION: IBM Corporation Auditorium
18100 Frederick Pike
Gaithersburg, Maryland

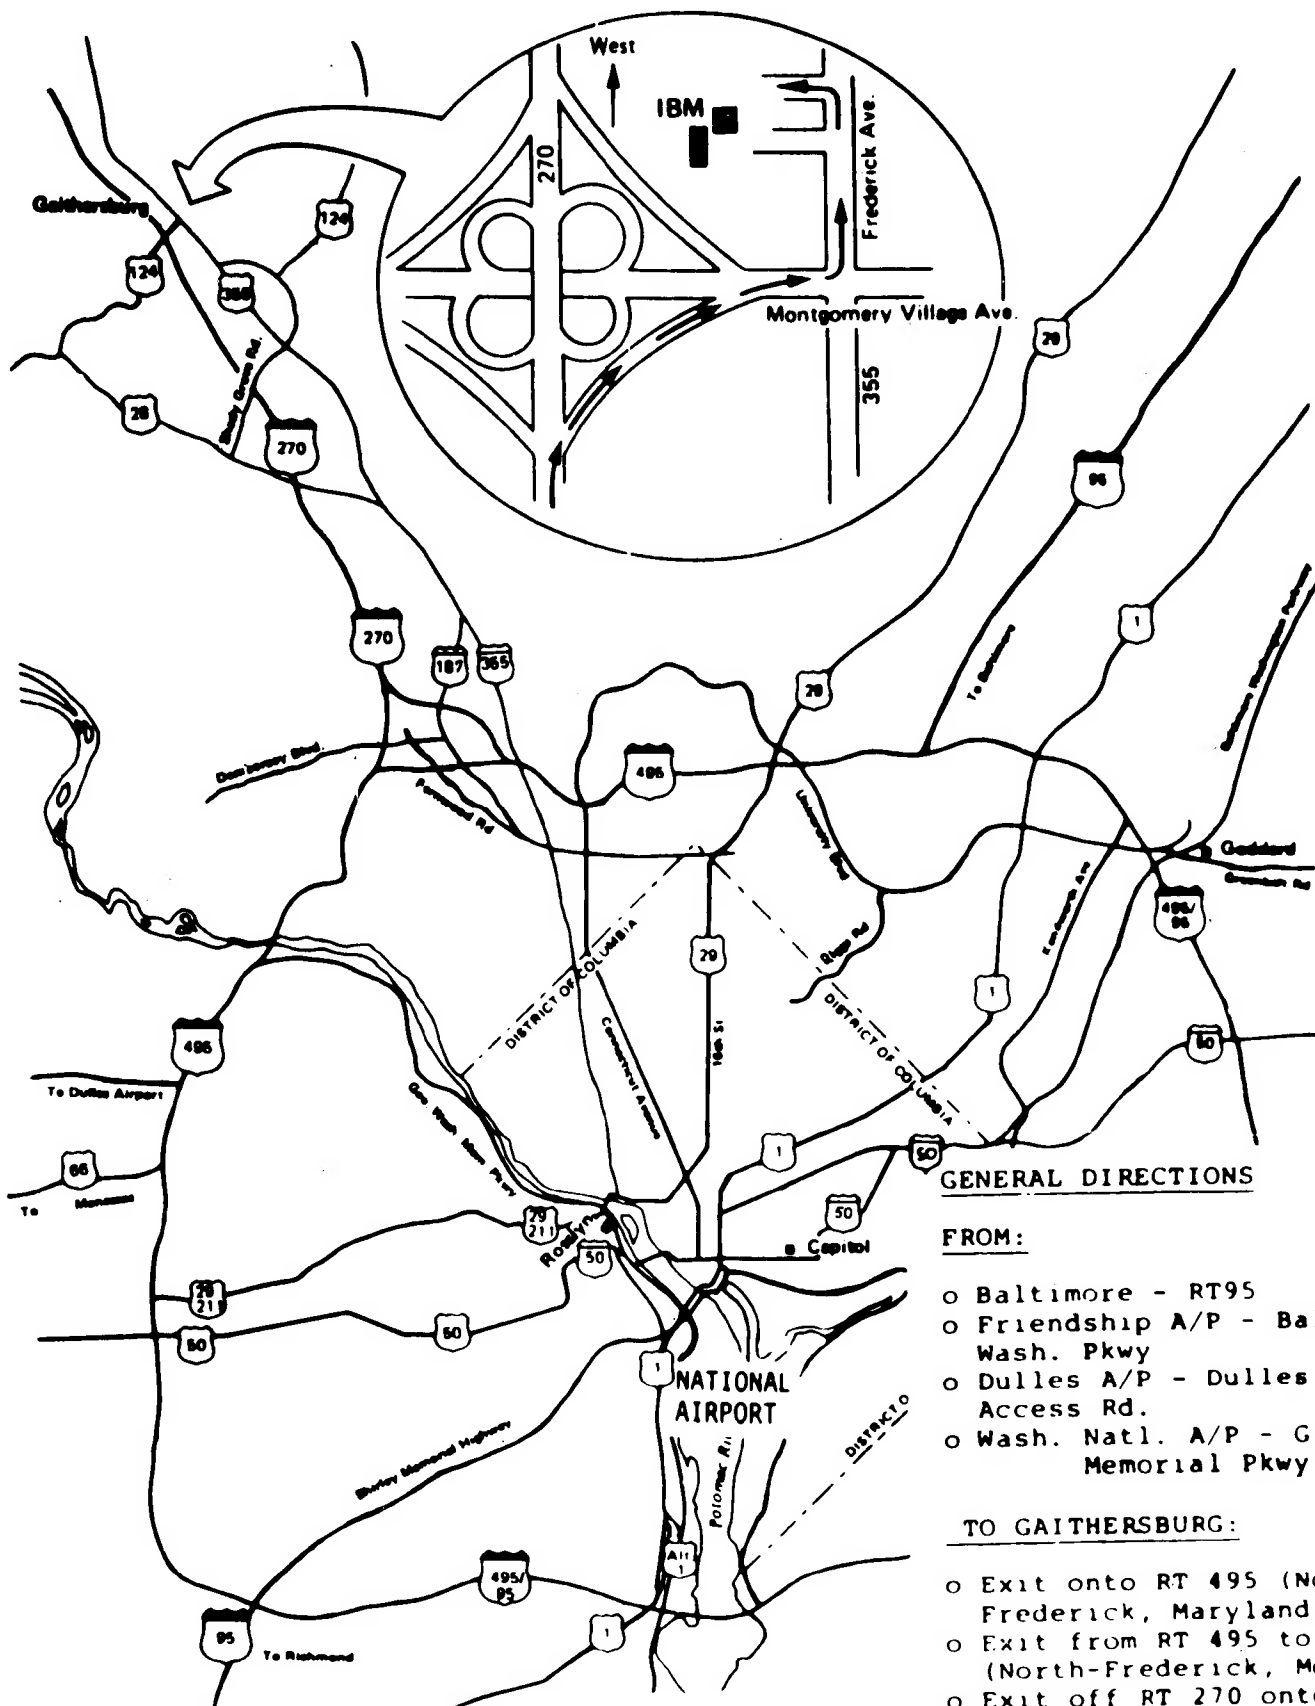

The IBM Federal Forum is designed to provide information on topics of importance to Government managers, senior staff professionals, and technical advisors.

The topic of Systems Management covers a variety of products, tools, techniques and procedures to help you manage your data processing environment. These principles apply to every organization regardless of size and complexity.

Our agenda features a presentation of the Systems Management methodology - the basic processes, data elements and interrelationships which form a base for more effective control and greater efficiency. In addition, a guest speaker will discuss implementation experiences in his state government installation. (K. 1004W)

Please plan on joining us for this truly timely and interesting Forum. The seminar is offered without charge. Enroll through your IBM Marketing Representative.
